Portfolio :

Profile

Industrial Engineering graduate from Sultan Ageng Tirtayasa University with a strong specialization and deep interest in 3D Modelling, Technical Drafting, and Facility Layout Design. Experienced in AutoCAD with practical experience using Blender. Proficient in designing technical drawings (2D/3D) for manufacturing components and optimizing facility layouts. Seeking opportunities as a 3D Drafter/Designer to contribute accurate, detailed, and efficient designs to the company.

Skills and Interest

- **Design & Drafting:** 3D Modelling, 2D Drafting, Technical Drawing, Facility Layout Design, Product Conceptualization.
- **Software:** AutoCAD, Blender, Microsoft Visio, Solid-works, Microsoft Excel.
- **Industrial Engineering:** Production Planning & Inventory Control, Kaizen (Continuous Improvement), Work System Measurement.

Relevant Design Projects

- **CNC Machine 2D & 3D Modelling:** Designed 3D models and 2D drafting for CNC machine components using AutoCAD, strictly adhering to precision standards and technical specifications.
- **Product Design - Phone Holder:** Conceptualized, shaped, and created 3D models for a phone holder product using Blender software.
- **Facility Layout Optimization:** Designed the company's facility layout and production flow using Microsoft Visio to visualize spatial optimization and workflow efficiency.

Work Experiences

Production System Laboratory UNTIRTA

June 2024 - Present

Laboratory Assistant

Key Achievements

- Monitoring 350 students to carry out practical activities according to SOP and ensuring that students successfully complete practical assignments.

Responsibilities

- Designing and implementing technical drawing practicum.
- Designing and implementing manufacturing process practicum.
- Designing and implementing facility layout practicum.
- Designing and implementing integrated practicum.

PT Krakatau Jasa Industri (KJI)

Apr 2026 – Present

Legal Officer Intern - internship

Key Achievements

- Assisted an administration processes including employee data management, payroll and attendance recap, recruitment support, documentation, and legal administration.

Responsibilities

- Managed and recapped data for more than 250 outsourcing employees.
- Assisted in developing company risk management.

- Conducted candidate interviews and supported recruitment administration processes.

PT Krakatau Sarana Properti (KSP)

Dec 2025 – Jan 2026

Team Project Consultant Planning Workforce – Project Based

Key Achievements

- Conducted work sampling analysis across 10 divisions to support workforce productivity evaluation.

Responsibilities

- Measuring worker utilization
- Determine the percentage of productive time
- Improving the work system

PT. Integrasi Produktivitas Indonesia

Jan 2025 – Feb 2025

Training Coordinator – Project Based

Key Achievements

- Plan, implement, and evaluate more than 5 training programs.

Responsibilities

- Prepare training materials.
- Lead training activities.
- Carrying out research and development

Education

University Sultan Ageng Tirtayasa (UNTIRTA) Cilegon

Sep 2022 – Present

Industrial Engineering

GPA 3.6

Relevant Courses:

- Certificate of AutoCAD – Udemy (2024)
- Certificate of Microsoft Excel – Udemy (2024)

Organization Experiences

Production System Laboratory UNTIRTA

Aug 2025 – Present

Role : Internal Training Division (Head Division)

Responsibilities

- Technical Skill Training.
- Leadership, communication, teamwork.
- Coaching and mentoring.

Role : Library Inventory and Maintenance Division

June 2024 – Aug 2025

Responsibilities

- Responsible for the management of library inventory, including data collection and supervision.
- Operating and maintaining machinery and other supporting assets.

Himpunan Mahasiswa Teknik Industri (HMTI) UNTIRTA

Apr 2023 – Dec 2024

Role : Department of Inventory and Social Affairs (Invensos)

Responsibilities

- Responsible for asset and inventory management.
- Implementation of social activities of the association.
